

KORG ToneWorks AX100G Preset Program List (for the AX1500G and AX1000G)

The knobs on the 100G are laid out differently than those on the 1500/1000G. This document is a reordered listing of the 100G's patches to accommodate the 1500/1000G's control layout. Where there is no corresponding parameter in the 1500/1000G, the most likely parameter was assigned. For example, the lonely *Depth* parameter of the 100G's *Cabinet* block is assigned to the 1500/1000G's *Air* parameter.
